

# COOKIES

Adults can have cookies whenever they want  
At least so I thought as a child  
I longed for the time with each passing day  
When I could indulge and go wild

Cookies for breakfast - cookies for lunch  
No one could tell me to stop  
Cookies for dinner - and then for dessert  
Cookies with ice cream on top

When you are consuming your cookies  
Enjoy but don't overindulge  
Age brings the freedom to eat as you wish  
But also the "Battle of the Bulge"
