

# LIFE IS A STORY

Life is a Story - A Story that Rhymes  
Our "actions" are like "words" we choose  
Tied to our past affecting our future  
Recording each win and each bruise

Like every good story - life twists and turns  
What's happened has been written in stone  
But we have a choice - for which word comes next  
The genre - the syntax - the tone

Precise word selection is what separates  
The average from that which is great  
Which way you turn - which way you go  
Your "Word Choice" will sum up your fate

So where can you go - and how can you find  
A word that is perfect for you  
Don't be afraid to reach out for help  
Here is a path that I choose

I use a Thesaurus and RhymeZone.com  
They're nearby each time that I write  
They help me refine they help clarify

- They help me remember my plight

- or -

- They help me prepare for the fight

- or -

- They show me my future is bright

## Plight - Fight - Bright

Three different words - yet each one can fit  
And each one is tied to the past  
But each word defines a different direction  
This tells me my future's not cast

Plight might suggest - I am stuck in the past  
Fight means I struggle today  
But if I embrace - and use the word Bright  
My future may turn out that way

I have the choice - I can decide  
The next word that's written for me  
And thus the direction or turn I will take  
As I journey toward who I will be

Which should you choose - I cannot define  
Except as applied just to me  
YOU must select - YOU must decide  
The direction that you wish to see

Will you be locked - to events of the past  
Will you struggle and fight every day  
Or will you decide to choose a new word  
And not throw your future away

Find your Thesaurus and keep it close by  
A Person - a Group - or a Book  
And this often helps - step out of yourself  
Then turn back to take a good look

What will you say to this person you see  
What dreams will you urge they pursue  
Help them unlock their deepest desires  
For no one knows better than you

I have no idea what you have been through  
Or where in your life you are going  
But I do know the sun will rise in the morn  
And the right rhyme is always worth knowing
